

## High Frequency Oscillation Ventilation (HFOV)

## Interventional Lung Assist (iLA) (extra corporeal ventilation)

We aim to deliver the product, complete with accessories and onsite support within 6 hours\* of your call.

Our Product Specialists will help with set up of the equipment, training and provide clinical support until the patient is stable. We also offer 24/7 telephone support for clinical advice, and ongoing site visits for additional training if required.

### Key Indications

- ▶ Low PaO<sub>2</sub> **HFOV**
- ▶ Rising Peak Inspiratory Airway Pressure **iLA/HFOV**
- ▶ CO<sub>2</sub> Retention **iLA/HFOV**
